I am delighted to announce that our beautiful springers spaniels lady&buster have had a litter of 7 beautiful liver and white English Springer Spaniel Puppies. There are 2 girls and 5 boys, Both the mother and sire are of good pedigree . They both work the field EXTREMELY well and come from good working stock.They will all be wormed, flead, microchipped,first injection and weaned These adorable puppies can be viewed now and will be ready to go to there new loving homes on Monday 11th September as they will then be 8weeks old.puppies can live outdoors or indoors but I currently have them outdoors,Please do not confuse these puppies with some of the other springers advertised. We own both parents so they can both be seen with the puppies. BOTH PARENTS ARE KC REGISTERED, THE SIRE BEING A 5 GENERATION PEDIGREE . Great with kids as they have been raised around children.
