We have 5 beautiful and strong, cream Golden retriever puppies which are be ready to leave for their new home now. This breeds gives you the elegance of a Golden Retriever. Golden retriever are loving, devoted, and energetic dogs, prized for their good-natures train-ability. They make great family members — a natural with kids and social with other pets — as well as valuable guide, service, and bomb detection dogs.

This litter is a product of selective and careful mating between Honey (KC pedigree name – Rebeca Regal), our beautiful, light golden, who has 26 championships in her 5 generation pedigree, and Bruce (KC pedigree name – Gaelleda Majestic Charmer) our striking, 45kg cream Golden Retriever, who has 27 championships in his pedigree. Both mum and dad have been hip scored and come from lines with a history of clear eye certificates for GPRA, CPRA and HC. In addition to these test, both parents received a full vet assessment to check their suitability for mating on the grounds of health and temperament. The puppies have been handled daily, and will follow a socialisation programme from week four onwards, which will include playing outside under supervision and being handled by children.

All the puppies are:

- wormed and flead every two weeks from birth;
- vet health check before leaving;
- vaccinated (full vaccination Nobivac L4);
- Have 4 weeks pet insurance when leaving for their new home and
- microchipped (identity chipped).

Please note that the current photos are of Honey's recent litter with Bruce which she had this year.
