Apple MacBook Pro. 13". mid 2010

Good condition. Owned since new. The laptop has been a work horse. for me. I do lots of photo editing and has worked really well.

It is heavily customised. It has had its CD drive removed and a SSD installed.

It has both an SSD installed (240 GB) and also a HDD 1 TB.

The laptop will come with Mac OS Sierra installed. There are a couple of screws missing from the bottom of the laptop. I love this laptop and will be sad to see it go :(. A few small dents on case. Battery still works, however will need replacing. It has 4GB. Possible sim slot problem if needing to expand.
