Hi all,

I am selling this amazing seat as sadly my little girl is too big for it now... We had some great rides, but is really like new as everyday I take it inside. The seat has never been left outside. On my pictures you will see the good condition, and I will clean the little bit of mud there is at the feet!

There is no rust on the central bar and can be fixed to any bike.

This is for collection only, in Putney.

Here is the official description:

The WeeRide Classic Seat is a centre mounted child seat, ideal for parents wanting to talk & engage whilst riding. The Classic is the No.1 selling seat in the UK & the US & allows the users to keep their children safely between their arms.

This allows the child to engage with the parent more easily whilst riding, not just a back view. The seat is also designed in the UK and is made in the UK.

The WeeRide Classic Bike Seat features a 5-point adjustable safety harness to secure your child, whilst the adjustable footrests accommodate for growth and prevent dangling legs affecting steering. The WeeRide Classic Bike Seat also has a headrest for the child to sleep, as it is entirely possible they'll have a little nap caused by the serenity of riding.

The WeeRide Classic Bike Seat fits all bikes including oversized head tubes and full suspension bikes from 16" + (except drop handle bars) and comes with its own bar so the WeeRide Classic Bike Seat will fit both men's and women's bikes.
