

Lovingly nurtured homegrown puppies.

Ready to leave around 14th October 2017, 2 girls and 4 boys. I am looking for permanent lifetime homes for these beautifully developed and intelligent puppies.

The pups are well into weaning and eating Eukanuba puppy food.

We are currently very active in the socialization stage, with many visitors, picking up and cuddling, and plenty of new experiences.

Next week, they will start on car journey training so that their first trip out will be a happy experience and not straight to the vet.

Both Mum and Dad are of affectionate natures and good with other animals. Mum lives with a cat and 5 chickens and has in the past lived with other dogs and children.

Mum is KC registered as is Dad, both top pedigrees with paperwork available to be seen.

Dad is a stud dog with a proven track record and a working gun dog and Mum is my companion and pet. She has proven to be a most excellent mother to her pups with strong instincts for the job.

Both parents can be seen, Mum with puppies, and Dad by appointment with Julie and Jez at Salrowbra Gun Dogs.

The puppies are very trainable and could provide hours of fun in the competition ring. They will also make excellent working dogs, assistance dogs, therapy dogs, companion dogs as well as being loyal and affectionate family pets.

They are currently being wormed every two weeks, and by the time they leave here, will be vet checked, microchipped, vaccinated with their first course of injections, registered on the KC activity register.

Red fox Labrador Flat-coated Retriever

I will be looking for homes where there are at least one person at home full-time.

If you would like to have one of my puppies, I will require a £50.00 non-returnable deposit. Once this has been agreed, then regular visiting will be encouraged and welcomed.

To register your interest, please email me and I will reply to you the same day.

Many thanks for.
