

Maths Tutor Bromsgrove (30 GBP)

Location **West Midlands, West Midlands**
<https://www.freeadsz.co.uk/x-553359-z>

Does your child struggle with maths?
 Are they lacking in confidence?
 Are they in their final GCSE year?
 Do they lack motivation?
 I work with:

All abilities up to GCSE Higher
 All ages from 10 through to 18
 Adult tuition up to GCSE Higher

A little bit about me:

Over 12 years experience teaching in secondary schools
 8 years teaching in one of the top Maths Faculties in the UK (5 Years as Head of KS3 Maths)
 Qualified Life Coach specialising in motivating students.

My aim is to provide a safe environment for your child to explore and extend their abilities in maths. As an experienced maths teacher, I know when children need to be gently encouraged to build their confidence and when they need to be stretched to reach their full potential. For many children, lack of confidence is the main barrier to success. That often leads to a loss of

motivation... and so the vicious circle begins!
 I'll help them enjoy it more than they do now
 Improve their understanding and ability
 Grow in confidence
 Achieve realistic (but challenging!) targets
 Become a problem solver
 To achieve the best results for your child...
