

Fridge Freezer and Dishwasher for sale. (50 GBP)

Location South West, Somerset https://www.freeadsz.co.uk/x-553456-z

someone with some muscle and van space.

Just moved from Blagdon to Cheddar. Large fridge freezer came with us but the kitchen here has one already and is fitted, so I've decided to sell mine. Perfect working order. Worked perfectly when it came out of the old house. Plugged in at new house and left until food could be transferred to other fridge freezer. Now surplus to requirements. Quite a heavy item, or more likely awkward to manhandle, so bring

I will turn it on when I know you are coming so that you will know it is working, but I won't leave it on long enough to freeze down, so we don't have to defrost it before you get chance to move it. The removal men say leave to stand for several hours before turning it on anytime after it is moved to allow the refrigerant to settle.

Price for this item: £50 ONO.

In addition, I also have a Bosch dishwasher that also came with us, but again the kitchen has one built in so I've decided to sell mine. Perfect working order.

Worked perfectly the day of the move as the dishes were washed and dried for the movers to pack them. (Didn't want them moving dirty dishes now did I?) Not been used since the move almost 4 weeks ago. Now surplus to requirements. Quite a heavy item, so bring someone with some muscle and van space.
