New! Alternative to Denture Adhesives!

Comfort Lining thermoplastic denture adhesive, creates a soft reline while custom molding to the gums. Never any paste to scrape off of the gums, simply a non toxic thermoplastic denture adhesive that attaches to the denture. One application will last up to one week! Very easy removal and very easy to use! Just heat and apply to the denture!

Our zinc free denture liner and adhesive all in one will have you in comfort while wearing denture's. As a Cushion Grip alternative, Comfort Lining is the next best OTC denture cushion. For more details on Comfort Lining thermoplastic denture adhesive, visit our website www.comfortlining
