Savic Oscar Litter Box - Traditional Cat Toilet With Integrated Carbon Filter

Savic Oscar Litter Box - Traditional Cat Toilet With Integrated Active Carbon Filter

A traditional covered litter tray with a translucent swing door and carbon filter. The cat litter box is easy to move thanks to its practical handle.

The Oscar Litter Box from Savic is a traditional covered cat toilet. The smart litter box is very well made and has an integrated active carbon filter which helps to get rid of any nasty odours.

The hood is attached to the base tray with sturdy clips which are easy to release for easy cleaning of the tray. There is a practical handle so you can easily move the litter box around.

The hood includes a translucent plastic swing door which lets through plenty light but also allows your cat to do its business in private. The door can be removed if preferred.

Remember to change the active carbon filter regularly so that it gets rid of nasty smells quickly and effectively.

Swing door: translucent with paw print pattern

1 active carbon filter included

Integrated handle in hood

Swing door

Made in Belgium

Dimensions:

Total: 50 x 37 x 39 cm (L x W x H)
