Hand-reared baby Sulphur crested cockatoo , They are extremely tame , very easy to handle and will step up to anyone. All my babies are hand-reared from 14 days old and are all super-tame and well handled. They are used to being around small children and used to a busy household. Me and my wife hand-rear all our cockatoos from being just babies to adult hood in small clutches so that each one gets lots of human attention at a very early age to ensure that all the babies are completely tame and easy to handle and DO NOT BITE so they can have a wonderful life with their new mums & dads. All the babies are weaned on pellets tropical seed mix , fresh fruit and veg. They are now ready for new homes at 8 months old and am sure that they are ready for this big move.
