Hello everyone. I've set up this Support Group For carers. I'm a carer for a family member and find it difficult to get out and meet people. So I thought about setting up this page so carers can chat and mix with others.

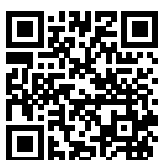

- There are around seven million carers in the UK – that is one in ten people. This is rising. Three in five people will be carers at some point in their lives in the UK. Out of the UK's carers, 42% of carers are men and 58% are women.
