A very rare opportunity to own a very low mileage 22 year old honda civic coupe 1.5ls. No rust what so ever. Vehicle has only covered 23,000 genuine miles from new. It has only done 2,000 miles in the last 11 years. The car went every year for its Mot. The car was bought new from KINGS WOOD honda on the Isle of Man in 1995. It came to mainland UK in the year 2000. One lady owner since 2001. The vehicle is in outstanding condition for its age. Totally mint inside and out. This car must be seen to be truly appreciated. MOT till August 2018, just been serviced so ready to go. You won't find a cleaner 1995 honda civic coupe 1.5ls. An appreciating asset for sure £ 3950
