Last 3 puppies so hard to sell but they must go.
AGOUTI boy - is tri eyed (last pic) he is very timid but does like to play and have lots of cuddles or sleep next to you.
Silver wolf - blue eyed boy (1st pic) scallywag that's sums him up in one. Loves cuddles and play time
And then there's Gingie (middle pic) blue eyed silver, white and ginger wolf. My favourite. Such a great personality like the 2 previously mentioned but also a soppy side.
£250.00 non refundable deposit. Must see and meet pup before deposit will be taken
Dad is a KC registered, black/grey/white wolf mask husky and comes from a proven (paperwork can be seen) long line of championship racing huskies and mum is a pedigree copper and white husky, both with fun and loving personalities. (Pics of dad amongst pics above)
All pups are in great health and were wormed at 2 weeks and will be wormed at 4, 6 and 8 weeks.
Mum is feeding them and on top we have started to feed them raw ground mince, puppy biscuits with warmed goats milk and oatmeal. As they get older we will introduce more raw (best choice for huskies)/cooked meats and biscuit foods to them.
Puppies will be ready to go to their forever homes at 10 weeks old and will leave with a puppy pack which will include the following;
Treats, toys, cuddly toy and piece of blanket with mum and pups scent to help both pup and their new humans to settle down together.
All puppies will leave having been vet checked, both vaccinations, fleed, microchipped and 4 weeks insurance.

Before messaging please do your research on the breed as they are not the easiest of dogs, they need lots of attention with lots of love, long walks and happy to be entertained (boredom is a real thing) get the best and you will be rewarded with a great companion for a lifetime for life, they won't leave unless you are completely happy with them, never before (unless you would be pleased to have them in a garden) please ensure your fence is 6ft high and 12ft deep to give time and to the "great escape"
