7 beautiful tri coloured Jack Russell puppies for sale. Mother can be seen with them along with an older sister from a previous litter. We have 1 little girl and 5 little boys who all have beautiful markings. 1 little girl is already sold. White with black and tan markings. Currently being weened and won't be available until after the 7th of November 2017. All puppies will have been vet checked, first injection, wormed and microchipped. It is extremely important to us that each puppy will become pets in forever homes. We will want to meet you before considering you to home one of our beautiful puppies. We have given our pups names for identification purposes. They are all gorgeous and starting to explore. They are all well looked after by ourselves and of course mum, Milly. They live in our house not in a barn or shed. They are spotlessly clean, and now exploring and finding their voices and personalities. We are not breeders. We are asking £300 per pup and you can reserve one ahead of time by leaving a £100 deposit (receipt given). No time!!!
