This Phone works perfectly, camera works, speaker, microphone. There's 1/2 dents in the corner (as shown in the images). There's also 1/2 very light scratches which are unnoticeable . It's locked to O2, however, this was purchased from a boot sale but tried to sell it to a Phone Company but wouldn't take the phone because it's reported missing/stolen. You can do EVERYTHING else on it except using a Sim. Unless you know how to fix that. Willing to take.
