

# Portable Compact Petrol Generator Quiet Suitcase Boat Caravan Camping Petrol NEW

Location **Northern Ireland, County Durham**  
<https://www.freeadsz.co.uk/x-557700-z>

The Petrol Generator is the perfect generator for caravanning, camping trips, boating, markets and even for emergency home use thanks to it's compact dimensions, ease of use, portability and impressively low noise output of 69dBA at 7m.

Not only is the compact and quiet, it's powerful too thanks to the air cooled 2 stroke motor producing an excellent 720 Watts of power, enough to keep your devices and machines running for up to 5.5 hours (at 3/4 load). The features an overload circuit breaker that helps to prevent potentially damaging electrical overloads from affecting your expensive electrical goods.

Neat and economical for classical design.

- Circuit breaker protects overload operation.
- Large muffler for quiet operation.
