Digger & Driver for hire.

I am a reliable hard working and efficient digger driver who will strive to create the best work.

I have over two years experience and I have my own digger which I am able to hire out with myself, with the option of an additional dumper & driver hire.

I am dedicated to my job and will continue until it is complete. I am willing to work weekends at an additional expense.

I am open to travelling a further distance for jobs with the possibility of an extra cost.

Within my experience I have completed jobs involving digging,

Trenches

Ponds

Footings

Drive ways

Soil removal

And general garden tidying necessary for digger use.

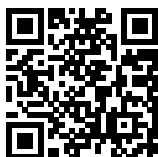

Etc.

No job is too big or too small so please ring with enquiries.

I have all valid digger tickets available on request.

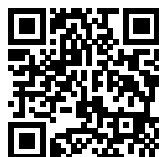

Please don't hesitate to call.

Look forward to hearing from you. .
