This Very Rare Model in immaculate condition was bought a number of years ago and stored with the rest of the collection that I'm now in the process of listing. I've trawled the internet for another of this model but failed to find one. At Auction Rare models like this (but not Gold Plated) have reached £750. Im selling mine for £600 The first and only time the box was opened was to take photos for advertising purposes.

if it doesn't sell I will put it into a specialist Auction House in London.

For obvious reasons I would like the buyer to.
