## Various Audio Amplifiers at Kynix Semiconductor (48 GBP)

Location East Midlands, Lincolnshire https://www.freeadsz.co.uk/x-560047-z

Want to make a audio amplifier for you musical instrument like guitar?

A linear amplifier is an electronic circuit whose output is proportional to its input, but capable of delivering more power into a load. The term usually refers to a type of radio-frequency (RF) power amplifier, some of which have output power measured in kilowatts, and are used in amateur radio. Other types of linear amplifier are used in audio and laboratory equipment. #Big brand:
