2 foot fish tank in good condition, black trim. (I can't remember how many litters)
Currently been used for sand substrate tropical and housed live plants aswell as tropical fish.
In 18 months that I have had the tank haven't lost a single fish.
Does need the light bulb replacing though but I have been using without for bout 6 months and as it's near a window hasn't effected the ecosystem so far.
Non smoking household.
Will need collection as i as I don't drive from bitterne park area.
is on other.
