## FAHRRAD ROAD BIKE

Purchased just over six months ago for £2899.00 this purpose built bike has only been out on one road test and safely stored back in the box in its original condition, it's totally brand new and can be seen as if delivered directly from the manufacturer.

An unexpected delivery, due at the end of November, has forced this very reluctant sale.

The performance of this road bike has been proven on the WorldTour stage and singled out as one of the finest handling bikes by experts.

The advanced quality and use of material, combined with some of the best, most intelligent components make this a fantastically light, high performance road bike.

The gearing gives a perfect selection for all situations with a semi-compact 52-36 up front and an 11 speed 11-28 cassette at the rear.

Equipped with new Shimano Ultegra R800 mechanical groupset, this bike caters to ambitious rider who appreciates value for money.

It's one of the best built bikes in the industry. The first to view will.
