Lowest price 100% Support Included Unique features like Multi-CDN and Receiver support. Dedicated Private Server, Private Bandwidth, Unlimited Private Channels. Ability to speedtest your private CDN and receivers

Go ahead and take the LiveBox challenge. search everywhere and compare us with Service Providers, Consultants, or anywhere else. There's no better functional and value for money solution than LiveBox for what you can get inside one single Box.

Why is the same solution more expensive with alternative options?

Other solutions are expensive because their sales pipeline has a lot of commission makers. We are product specialists and we choose to use a different path to communicate to our customers and sell directly to our customers.

What are the limits?

There are no limits on your usage on the basic solution. We have a very transparent pricing so you can compare our service with other providers. We have a very low CPU usage and Bandwidth usage so that you can upgrade to a higher bandwidth if you need it. Multi-core processors depending on your usage.

What else can you buy?

Location based connected CDNs are also available to provide you with the lowest latency. Unlimited 24/7/365 transcoding
