English Vintage 1946 to 1959 Britains Ltd. Hollow Cast Lead Toy Rhinoceros Wildlife Animal Model from Zoo Series. Number: 951.

There is no damage to the casting of this model, other than a tiny missing right ear - which has been taken into account in the asking price for this item. It retains its original paint work. There are some rubs to the paint, which is to be expected given the model's age. Overall the rhino is in very good played with / play worn condition.

Please study the photographs provided to make your own assessment regarding the condition of this item.

This is a private sale from a pet and smoke free home. The rhino has been with the family since it was purchased new.

The rhino is approximately 3.0 cm high and 5.5 cm long.

I would prefer the buyer to collect, and pay cash on collection please. However, I would be willing to post to a location within the United Kingdom, at the buyer's own risk, for an additional £7.25. In this situation I would make very reasonable effort to pack the rhino carefully so as to help ensure its safety. Regret no returns accepted.

I also have a small number of other vintage Britains lead animal models for sale which are well worth considering. If buying more than one item from me I would be happy to post them together and only make one charge of £7.25. Thank you.

Note: Items which contain lead are hazardous and should not therefore be given to children under 14 years old. Although originally manufactured as a toy, subsequent UK legislation means this rhino model is

now intended for adults.
