quotLakelandquot Soup Maker - Touchscreen- used twice (85 GBP)

Location **South East, West Sussex**
https://www.freeadsz.co.uk/x-561005-z

"Touchscreen Soup Maker chops, blends, cooks, simmers and stirs your soup from start to finished perfection, all in one jug.

Simply add your ingredients to the soup maker, select one of the 4 pre-programmed functions and 30 minutes later you can be tucking into tasty, freshly-made soup. There are automatic settings for rustically chunky or smooth and creamy soup and, if you want to make your own recipes, the temperature can be set from 75 to 100°C and the timer up to 60 minutes, and three blend speeds – low, medium or high – let you get it exactly the way you want it. And it's really easy to use, too: just make your selection on the touchscreen LED control panel. There's a countdown timer to let you know when your soup is going to be ready and it beeps when stirring, when cooking is finished and it's keeping warm.

It also does much more than make soup. One of the other automatic settings let you cook and blend sauces in as little as 20 minutes, and the ice setting blends without heating to create nutritious smoothies, milkshakes, baby food and cold dips and sauces.

Quick and easy to clean due to its auto-clean setting and non stick heating plate, it comes with a cleaning brush so you can reach right underneath the stainless steel blade. The heavy duty, durable glass jug makes it easy to check your ingredients while cooking and because it blends in short, gentle bursts of slow stirring it's easy to achieve whatever consistency you like. You can add extra ingredients during cooking using the removable measuring cup in the lid and it comes with a selection of recipes to help you get started. 2 litre glass jug with 1.4 litre working capacity for hot liquids and 1.75 litre capacity for cold. 24 x 19 x 44cm H. Heating element 1000W. Blender motor 500W".(Per Lakeland description).

This has only been used twice, excellent condition. £125.
