The following massages are available from a qualified and experienced female massage therapist for both males and females:

The four top techniques:

* LOMI LOMI: is a unique healing ("Loving hands") massage derived from the ancient Polynesians and more specifically the master healers of Hawaii. It works gently yet deeply into the muscles with long, continuous, energy flowing strokes, totally nurturing the body and, enabling the recipient to relax, give in and simply be, also helps release the blockages and therefore facilitates the road to healing. On the physical level, through Lomi Lomi stress and tension are relieved, blood and lymph flow assisted and the elimination of wastes and toxins stimulated. Lomi Lomi is not just a physical experience; it also facilitates healing on the mental, emotional and spiritual levels as well. The client viewed as someone to be returned to harmony and balance.

* HOT STONE massage: is a specialty massage where the therapist uses smooth, heated stones as an extension of their own hands, or by placing them on the body. The heat can be both deeply relaxing and help warm up tight muscles so the therapist can work more deeply, more quickly.

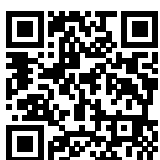

* AROMATHERAPY/ HOT OIL MASSAGE: Therapeutic massage normally using a custom blend of aromatic essential oils to ease away physical and mental tension, thereby achieving greater benefits. Can also be done with only hot natural oils, no essential oils on your request which has similar effect.

* BAMBOO MASSAGE: using a unique technique (developed by Gerard's Co) offers relaxation and soothing as well as draining effect. The massage also has strong bio-stimulating and revitalizing effects. It can be also applied to specific areas of the body only, before or after a medical treatment.

The massage improves your health and is ideal for both men and women. Sportsmen will appreciate it for sore muscles, nerves, joints and blood circulation as well as for relaxation and anything else. It is also a great revitalizing tonic for those who are going through a tough time with stress and anxiety. Bar and spa owners can also use this as a gift for their family or friends. It is a great gift for anyone who is looking for a relaxing massage for themselves or for a loved one.

* SWEDISH MASSAGE- soft or medium firmness, sporty style: A popular massage that uses a combination of different strokes to help reduce muscular pain, ease joint stiffness and alleviate stress and headaches. Benefits include relaxation, increased blood circulation, lymphatic drainage and improved muscle tone. Also, helping to purge the body of harmful toxins.

* DEEP TISSUE MASSAGE - firm sport style: is a type of massage therapy that focuses on reaching deeper layers of muscles and connective tissue. It is especially helpful for chronic aches and pains and contracted areas such as stiff neck and upper back, low back pain, leg muscle tightness, and so on.
