AVANTI ISIS COBALT 14' RIVER MONSTER 3 piece Fishing Rod BRAND NEW

Long and strong, the new Isis 14' River Monster is a rod that all running water anglers will love. Isis is the new flagship, high-end range from Avanti. And while the quality is high, the prices aren't and this new rod is on offer at only £ 36 (R.R.P.), while stocks last. The 14' River Monster is a very strong, carbon float rod designed for bigger fish and will find favour with traditional anglers who love to fish with stick floats, big wagglers and chubbers for chub and barbel on the rivers. The long length gives better control over floats and allows you to run a rig downstream with precision to make your hook bait behave as naturally as possible which can be the key to tricking wary fish. Hook a decent sized fish with this rod and it will perform superbly with an exceptional amount of power in the butt section leading through to a softer middle and tip which will protect lighter hook lengths and/or smaller hooks. But river fishing is NOT the only place this rod will benefit you, and anglers who like fishing down the edge on day ticket stillwaters will have a precision tool for dropping rigs in tight to features or at the base of the near shelf and playing big carp and tench. If you need to fish a deep float rig and be able to cast a decent distance then the extra length over traditional waggler rods is a massive bonus. This purchase of this rod could save you ££££££££'s negating the necessity of purchasing of other rods. Tech Spec:-

Avanti Isis 14' River Monster rod
 Double and single leg Matsuku Black Eye Precision lined guides
 Powerful carbon construction

Three sections
 Work Double
 reel seat
