The Divine Matrix two DVDs 4 hour film presentation, hard copy Book and Audio book 4CDs by Gregg Braden. Two major breakthroughs in science...

The DVD is a four hour presentation and excellent footage dealing the the new cutting edge technology and discoveries that space is not empty, their is something in the space, incredible footage of NASA special filter footage capturing this amazing phenomenon through the universe, also a second discovery that changes 100 years science beliefs. The Book and audio book CDs capture all the information to refer to and excellent material. Superb for science students and those interested in new science discoveries. Every single science text book needs to be updated and all science data needs to be updated, a huge feat, but unlikely as this information changes everything, it changes everything we thought we knew about space and who we are.

Truly excellent presentation and film. Part one and Part two on 2 DVDs.

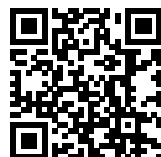

The DVDs used to view when purchased, Audio CDs never used as new, the book started to read first few pages never managed to get any further!!

Buyer to collect but if posted, postage fee extra £2
