Testimonial: Chinmay Sir is an excellent teacher! I came into his class knowing nothing of Java but now i'm able to write programs confidently. He's patient and kind who's knowledgeable of the subject and is willing to go the extra step to make sure you understand the material. I think that's what separates Chinmay Sir from other tutors. He doesn't just do it for the money but because he's passionate about teaching and helping others succeed! Brian San Jose USA

Core Java
J2ee
Struts
Spring
Hibernate
Ajax
Live Project

Location

London, London

Online Java Tutor. Private Java Classes by 12 Yrs Experienced Sw Engineer.

Training will proceed at student's speed of understanding.

Student can clear all his doubts and gets his basics strong.

Training can be through Skype and remote desktop sharing softwares.

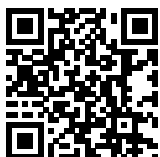

Student is made to type code in his own machine while being assisted through screen sharing.

So it is a Practical training.

Topics that are taught include Core Java, J2ee, Struts, Spring, Hibernate, Ajax, Angular etc.

Student can work on a live project during the training to get hands on working experience.
