

Samsung 65quot 4K UHD LED Curved Smart TV - Series 7 (UE65HU7200U) (500 GBP)

Location **West Midlands, Shropshire**
<https://www.freeadsz.co.uk/x-563323-z>

This is our superb 2015 Series 7 Samsung Ultra HD 4K Curved 65" LED Smart TV, which we have decided to sell to make way for a new slightly larger TV.

Our TV is in perfect working order and excellent cosmetic condition with no marks on the TV housing or dead pixels on the screen, which is flawless.

When we bought this TV we took an extended warranty program which covers the TV up until February 2019, so any unlikely problems in the future are fully covered by Samsung.

It comes boxed and complete with the stand, both remotes, the original manual and paperwork. I can also include an unused wall mounting bracket as well if needed.

This is a lovely looking TV that delivers stunning pictures in HD, UHD and 4K. I have it hooked up with my Sky Q and it delivers the best Ultra HD experience. The television's Smart Hub also seamlessly connects you to services such as Netflix, Amazon Video and YouTube.

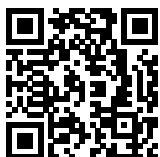

Description taken from Samsung:

Surround your senses and be part of the action

Samsung's revolutionary Curved UHD TV takes you into the new world of immersive viewing and makes you feel like you're right in the middle of the action. The curved screen is the right shape for the optimal viewing distance in your living room. And the gently curved LED screen gives you a wide and painless viewing from all angles. The screen shows the finest picture quality that a Samsung UHD system can offer.

UHD upscaling enhances the quality of all of your viewing

Thanks to the Samsung UHD Picture Engine, you can enjoy various kinds of content with near UHD-level picture clarity, even if it's not from a UHD source. Samsung's innovative processing enhances broadcast TV shows and movies as well as video on demand and more. That means not only does it process UHD sources at 4K resolution, it even converts low-resolution content to a level of clarity

that's almost like Ultra High Definition.

4 times the Full HD resolution

Ultra HD viewing means you can see every intricate detail on the screen clearer than ever. Your Samsung UHD TV offers a resolution four times higher than Full HD, with accurate true-to-life colour. Enjoy a picture that's optimised for even greater clarity and detail than you've ever seen before.

Powerful Quad Core processor for faster performance

Thanks to a powerful Quad Core processor, your Samsung Smart TV offers enhanced performance. You'll notice the difference straight away, with faster multitasking and switching between content and web browsing, as well as smoother interaction. With this extra power, your entertainment experience will be so much more enjoyable, with less waiting and more viewing.

Pleasing curve design that enhances the UHD experience

Thanks to Samsung's Aero Curve design, you can enjoy viewing that is even more immersive and enjoyable than ever before. The Aero stand elevates the picture and makes it appear to float, bringing your entertainment to center stage. Add a curved screen to the mix and your viewing experience goes up a whole new level. Natural materials and premium detailing deliver an elegant look that you'll be proud to own, and its low-profile built-in speaker provides great audio from the TV itself that matches the mighty UHD screen.

Enjoying Smart TV is now easier and faster

The industry's reference Smart platform just got better. The leading Smart TV experience is now even more powerful, with faster access to Smart features, true multitasking and an intuitive interface. As soon as you turn your TV on the Smart Hub provides instant access to your most frequently used and favourite content, channels and sources from the new customisable bar at the bottom of the screen. To enable you to access even more great entertainment the Smart Hub intelligently organises and manages all your content into five easy to navigate panels: On TV; Movies & TV Shows; Multimedia; Apps; and Games panel.

Clear Motion Rate minimises motion blur

Thanks to Samsung's advanced Clear Motion Rate (CMR) technology, even fast moving scenes are delivered with clarity. A higher CMR means clearer viewing and less motion blur, so you can enjoy action films, sports and other entertainment at their very best. This technology is possible due to an enhanced

panel refresh rate, image processor speed and backlight technology. That means viewing that's clearly better.
