Is Stock Market a Safe Platform

A financial market is a broad term describing any marketplace where buyers and sellers participate in the trade of assets such as equities, bonds, currencies and derivatives. Financial markets are typically defined by having transparent pricing, basic regulations on trading, costs and fees, and market forces determining the prices of securities that trade.

Types Of Financial Markets

Capital Markets: - A capital market is a market for securities, where business enterprises and governments can raise long-term funds.

Money Market: - The money market is where financial instruments with high liquidity and very short maturities are traded.

Cash or Spot Market: - The spot market or cash market is a public financial market in which financial instruments or commodities are traded for immediate delivery.
