I own a business in computer repair and I have refurbished this PC to a wonderful condition.

If you're not familiar with Windows 10, fret not, I have simplified it and am more than happy to show you how to use it (for free).

It's an Acer that can stand up or be set on its side. It's smaller than the traditional desktop.

It's a 64-bit machine with a Pentium Dual Core processor that operates at 3.06GHz (quite fast). There are currently 2GB RAM, but am happy to add more.

I have installed a free antivirus - Avast, free version similar to Microsoft Office - OpenOffice, Adobe Reader, Google Chrome with Adblock and Avast extensions, and it is fully up-to-date with all Acer and Windows updates.

Comes with a 3 month warranty on the parts. From a smoke free home.

I am also selling this with a large flat-screen with a webcam but this is an additional £40.

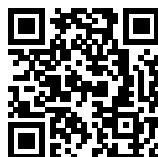

I am open to offers.
