Dear Landlords

No need to be a full-time busy, stressed landlord anymore. Just sit back and relax as the rent comes into your account each month.

Letting agents are usually very expensive charging you 10-20% of your income for a management or finding fees. You can save plenty of time and thousands of pounds with us as we do not charge you at all. Zero Commission, zero letting Fees. We can even refurbish your property for free. You do not lose anything as you do not pay for anything. You can only earn.

We are becoming your tenants so your rent is paid whether you have someone at the property or not. We will take care of all legalities, maintenance, and other small or big issues. You do not need to deal with anything just get your money every month and enjoy your time.

We take properties 3+ bedrooms no matter what condition they are in furnished or unfurnished then prepare them, refurbish, decorate if needed.

Each Landlord is treated individually as we understand that you have different needs. We are very flexible. It is up to you if you decide for full package or only short time management to check how we work.

Call or text us to arrange free valuation meeting.
