About Course SRM in SAP stands for Supplier Relationship Management. It is one of the parts of SAP Business Suite Software. It is based on the SAP NetWeaver platform hence it also known as SAP NetWeaver SRM. It is for strengthening the procurement processes of an organization by automating, accelerating of procure-to-pay processes for goods and services. It introduced many facilities for better co-ordination between the suppliers and business activities. SAP SRM will examine and forecast purchasing behavior, it also shorten the procurement cycles, and work with your partners in real time. So it helps for building long-term relationships with the suppliers. The efficient processes in SAP SRM enable you to cut down your procurement expenses and to work more intensively with more suppliers than ever before.

Along with Training We offer you 1. Interactive Learning at Learners convenience 2. Industry Savvy
