More about Wave 105 Cash For Kids

We were so inspired by the overwhelming success of our charity auction in 2009 that we have registered our own charity, Wave 105 Cash for Kids, to continue our support of children in our region in to the

future. We are committed to supporting local children under the age of 18, who are financially, socially, emotionally or physically disadvantaged. Additionally to encourage a healthy lifestyle, we aim to improve mental and physical wellbeing of our children and address specific needs within the Wave 105 region. We believe in the way our age group should go through their basic needs to be met, from clothes, education, health needs, guidance and support for their future. We want to encourage children to participate in activities outside of school that can engage, spark their imaginations, and help increase their self confidence through art, music, or any sport they are passionate about. We will provide grants to individuals as well as other charities to help ensure the specific needs of children across the region are met. Figures show that there are approximately 54,000 children living in poverty within the Wave 105 Region.

Well over half of parents in poverty (61%) say they have got back on food and over a quarter (24%) say
