Location **Wales, Mid Glamorgan**

Bought for a present and its only been used a few times. In excellent condition apart from a few cosmetic scuffs on outer case and a dent in the corner (as seen in picture)
Inner screens are in excellent condition! Bottom screen looks scuffed but that's a screen protector on it that is scuffed so screen underneath is immaculate.
Comes with box, charger, 2 spare pens and receipt from when i bought it. Only thing that's missing is the big pen that comes with it.
Its also built in with a zoo game and asphalt game.
