Cryptocurrency is becoming more popular and is here to stay.
 Many people are considering investing in the market.

Please be warned, you are at a high risk of losing money if you start buying Bitcoins for cash in hope for profit or mining them (it is mostly unprofitable for normal people)
 If someone is promising you huge profits, it's a SCAM!
 You can still invest in the market by mining your own coins easily on ANY device.

I am an experienced IT Analyst and can offer you tonnes of advice and get you mining on all your devices in an hour!

No investment needed! No specialist hardware! Safe and smart!

Please email me if you wish to book an appointment during which You will:

- get your devices (mobiles, laptops, desktops) mining cryptocurrency straight away!
- learn the basics about cryptocurrency
- find out what not to do!
- learn about security

All this and more if you wish, my experience includes amongst many:

- Network Architecture

- Hardware installation, administration, security for servers and cloud users
 - File sharing and file structure
 - Project management and software

Low respond to serious requests by email only sorry no texts, too many scammers.
