One issue, and it is if you worry about it. I;m not....as its been there forever. A tiny what looks like a fracture at the back of the headstock / neck behind the nut. It plays and sounds great..easy action, no buzz no distortion, No Bellying or neck sinking into the body. Straight neck. Tunes easy AND stays in tune forever. Iwill show the one issue it has in the pics. I am pricing it and will keep to the price. Its a great player without the up-front status. If you like it try it but it is what it is.

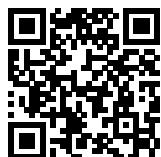

Collection only
