

039Science with Art039 workshops for kids (ages 4 to 12ish) (20 GBP)

Location **London, London**
<https://www.freedasz.co.uk/x-565225-z>

A fun interdisciplinary and innovative set of science activities inspired by art for young people aged 4 years and over.

Based on international award winning workshops, the January 2018 sessions will explore several basic concepts around symmetry and patterns leading to the discovery of complex and beautiful fractals... and discover they can be found just about everywhere. This is part of a series of 18 different topics explored through the year.

Join us every other week on Saturdays from 2PM or on Sundays from 10AM restarting on the 20th/21st of January 2018.

To learn more about this and other similar activities and to book, visit our website <https://www.stellaria-youngminds-ltd/>
