You Are Welcome To Visit talkingfantasies.com

I provide fantasy and escapism from the trials and tribulations of modern day life with my confidential telephone service, specialising in many diverse aspects of conversation, whether you wish to explore a fetish such as domination, have a secret fantasy that you would like me to help you explore, or even just need some sexual advice and direction.

I am a well educated, eloquent woman with years of experience in talking therapies, able to adapt my style to embrace your desires - whatever they may be (within the bounds of decency of course!)
