Nord Stage EX 88. This is the 2nd iteration that Nord made of the original stage keyboard. It's around 7 years old, but still works perfectly, and is in excellent condition with hardly any marks as shown in the pictures. Cost £2200 when I purchased it, and the current generation retails for over £3000! Now selling due to upgrading my setup.

I am including the power cord, sustain pedal, Nord keyboard stand and Nord case, plus Nord cover, so you are getting a lot of extras!

The Nord stand retails for around £110 new, and works by attaching two plates on the bottom of the keyboard (as shown in the pictures). These plates can be easily removed with a screwdriver if not required.

The Nord case is well used and has a couple of signs of wear. These are that the handle is split in two and one of the wheels is slightly worn (see pictures). The case still works fine, but is a little bumpy due to the worn away wheel. This is the only notable issue with everything that I am selling.
