Barr & Stroud Skyline 7x50 Marine Binocular With Rangefinder/Compass:
Barr & Stroud Skyline 7x50 Marine Binocular With Rangefinder/Compass is a lightweight and durable binocular which is specially designed for marine use. It is constructed with aluminium and has rubber armoring which serves the purpose of providing the user a firm, comfortable and an easy grip while this same rubber armoring also works as a shock resistant at the same time. With large 50mm diameter objective lens and the high quality BaK-4 porro prism maximize light transmission and deliver bright and crisp images. Binocular with 7x specification deliver sharp, clear images at long and short range viewing distances, which offers you plenty of flexibility. It has fully multi-coated optics with anti-glare properties to improve light intensity and clear image with high.
