

Leather holdall (24 GBP)

Location **London, London**

This is a substantial leather holdall by 'Hidesign' in good condition. The approximate dimensions are: Base 25cm wide, length 47cm and the height is 30cm. The holdall has been little used as an overnight bag and is clean. The bag has a handle and shoulder strap. The leather bag is a dark tan colour, lined on the inside with a hardwearing pale coloured fabric.
Note: There is little sign of wear to the holdall, even the base. The main mark is a small scuff on one side near the base, which could probably be polished out. A new bag like this would probably cost in the region of £.
