a world of digital agents, country wide and national agents, independent agents, and online agents how do you choose the right fit for you?

Well it all boils down to your idea of service and what level of relationship you want with your agent. We believe that ultimately, whichever option you choose, the end result is the same; you find yourself an agent to manage your property.

Agents such as “green breezeblocks” or similar are a huge player in the price war. However a recent large study into what clients look for in their agent shows cost came in at 5th in the list of priorities. The study showed that TRUST was first, taking the top line with best rental gain.

Second on the list came speed of service. This is obviously vital to our clients.

Third came expertise. Local people having a local knowledge of the area in which they work.

Fourth priority was Contact and availability. Making it easy to get in touch with your agent.

Some very interesting findings! So how do Kreiga fit with the expectations?

Kreiga are a fully hands on local service. We offer comprehensive bespoke packages meaning that you, the landlord, set the rules. You pay for the service you want and not the services that make us the most money. We do not have glitzy high street offices keeping our overheads low meaning that this saving can be passed on to you.

We operate in our client's best interest. This is a statutory duty but unfortunately our competitor's do stray away from this due to the policies and procedures of their large organisations.

To help you decide what service suits you best, ask yourself these questions:

Do you want a hands on or off service? Do you want an agent that offers you the best service for you or

<p>the best service for them? Do you want an agent with large overheads meaning increase costs for you? Do you want an agent that offers you their best service when they need you or an agent that offers you their best service throughout your relationship with them? Do you want an agent who assesses or an agent that offers a standard honest price?</p> <p>It's a good compromise to step on up to the level of upselling to help their business float. The consideration in this for what is best for the customer as it's about staff thinking of commission and bonus.</p>	<p>the best service for them?
