Swedish Body Massage

In Swedish body massage a therapist will use a carrier oil such as grape seed oil to lubricate your skin.

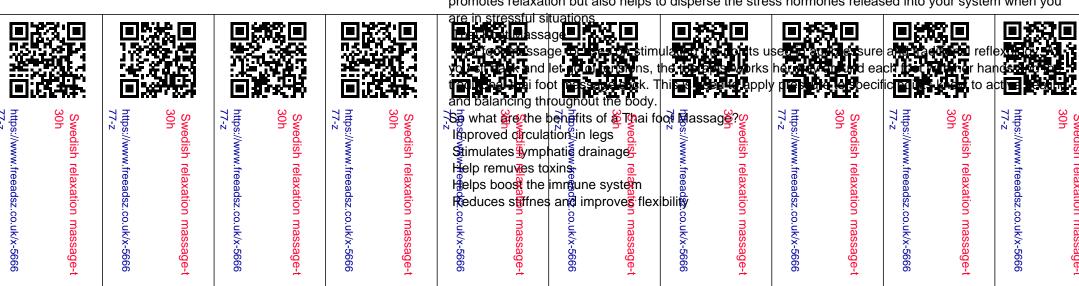

The oil is applied onto the skin and then the therapist uses various techniques to warm up the muscle

The aim of the massage is to warm and stretch the muscle tissue so that toxins are drained away and fresh blood flows into the muscles.

Benefits of a Swedish body massage

Body massage has been found to release positive endorphins in the brain creating a feeling of wellbeing and positivity

Massage has also been found to reduce blood pressure and promote general relaxation
Swedish body massage can improve the condition of muscle tissue and reduce aches and pains
This treatment also improves the circulation and can help to reduce levels of stress hormones
Swedish body massage – like most forms of massage, is a good way to manage stress. The massage
promotes relaxation but also helps to disperse the stress hormones released into your system when you
