IVECO DAILY INSTRUMENT CLUSTER REPAIR (2002-2008)

£150

The Iveco Daily Dash failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster.

The repair is carried out by fully qualified electronics engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required.. Your mileage reading will also stay intact, so there is no need for mileage correction.

Your Iveco Speedo can be repaired at a fraction of the cost compared with the price of purchasing a new one.

COMMON ISSUES

Failing warning lights
Speedometer problems
Flickering cluster
Complete power failure
Failing Pixels on screen

REPAIR PROCEDURE

1. We will email the cluster to you using the instrument cluster link on the website.
2. You will need to print this form out on our website and you don't have a printer please use the information below manually including your post code on the outside of the box for our reference.
3. Sign the form, cut off the address label and secure to the front of the box.
4. We recommend sending via Royal Mail Special Delivery UK.
5. When we have received the cluster and have repaired it we will call you for payment via telephone.
