

Luxury Individual Eyelash Extensions

Location **London, London**
<https://www.freeadsz.co.uk/x-567187-z>

A single lash extension is carefully applied to each one of the clients' natural lashes using special glue. The process is completely painless and very relaxing (most clients fall asleep!) The lashes can be applied in a variety of different lengths and thickness dependant on the clients' wishes and desired outcome.

The application will take approximately 1.5-2hrs, and during this time the client will be laying down with their eyes shut.

Eyelash extensions do not damage the lashes in any way as they fall out when the lash does naturally over time. With good care, they will last up to 3 weeks before needing an infill (full aftercare advice will be given).

They are perfect for holidays, special occasions or just to feel a bit more glam!

Lash & brow tinting is also available, and the process is quick, simple and painless

Lash tinting is recommended before application of eyelash extensions as it makes the natural and faux lash blend together more naturally, and gives a more voluminous look for the client.

Prices:

Full Set - £50

Infills - £25
