EffiaSoft provides comprehensive and affordable billing and ERP software such as billing, inventory, procurement, ERP, CRM, human resource, accounting and e-commerce applications on cloud and mobile platform to Micro-Small-Medium business (MSME) as service. EffiaSoft strive to bridge the gap between high-end, overcomplicated, expensive ERP solutions and the low-end limited functionality ERP products. By providing ERP software as a service on the cloud, we deliver best in class service, minus the recurrent expenses of installing and maintaining an in-house server-based ERP application.

Focus on your actual goals rather than worrying about maintenance of IT infrastructure or the recurring costs of hardware and software licensing. Let us tackle these issues for you, powered by our next generation of billing or ERP software without boring a hole in your pockets.

Our just billing mobile app comes with many inbuilt features which are very useful for retail billing, restaurant point of sale, services invoice software, inventory management, purchase recording, maintenance of accounts, GST billing, GST return filing etc

If you having a multi-location restaurant or retail business, you can manage all location business from one place at any time by installing our mobile billing app and windows billing software.
