This garment fits my partner, she is size 10-12. She is 36C bust size.

It was made in Korea, unknown period. Very clean, undamaged, no cleaning needed.

It is in very good condition with no malting apparent.

There is one stitched seam visible on the inside of the right hand sleeve cuff. But this just seems to be down to the natural directional lie of the fur (see photo)

There are two spring loaded clips for garment closure. These are easy to use and avoid damage to the garment is pulled or snagged.

Garment is located in Stechford, Birmingham for collection or fitting check

Free local delivery to most parts of Birmingham area (please ask)
