He is 7"high and 7" across the base, he weighs about 18 to 20 ounces, although it has a few chips to the paintwork, he has travelled from Dunedin in the South Island of New Zealand, to Dusseldorf, Germany, and then to the Canary Islands until we bought him 4 years ago, but now he needs to make someone else happy, if the offer you make is favourable. We put £50 in the price box but its not worth that, so open to.
