Pattern number R 325033 I have trawled the internet looking for pictures of this set and have found none , although I have found evidence of the company mark and trade mark, which leads me to believe that they are at least unusual if not rare. The "BISTO" trade name was only used by Bishop and Stonier and often appeared in variations on that shown in the pictures. We have 3 cups, 2 saucers, 2 plates, 5 side plates and 1 jug in various conditions but would benefit from some expert care. Please contact me for further info and a viewing. The price quoted is for the remaining 13 pieces but I will consider splitting for the right price. All serious offers considered. Cash on collection only. Display case not included but is available at extra
